David H. Spenner
Chief of Police

The vision of the Racine Police Department is to provide an environment in Racine that is free from the fear of crime, where people enjoy a high quality of life, and the community can prosper. During 2002, this department made many strides towards fulfilling this vision. Through our efforts, and the close working relationship that we have developed with the Common Council, numerous community organizations, and the residents of Racine; progress has been made.

Serious crime is down, especially violent crime, nearly 20%

Officers are working closer with neighborhoods to solve problems together.

Improvements have been made in our quality of life through ordinance and traffic enforcement.

Our department also continued the tradition of innovation that allows us to improve as an organization. These changes included:

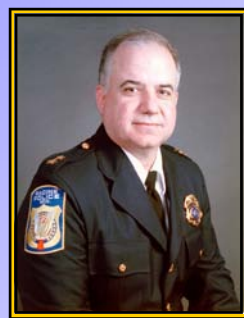

- ♦ *Creation of a Training and Technology Division* – facilitating the integration of new technological tools for officers with the training necessary to make our officers the best and most efficient possible.
- ♦ *Expansion of the Investigative Division and Identification Unit* – Six Investigators positions were re-assigned to Second Shift hours to improve investigative operations, and two Criminalist positions were created in anticipation of the new Automated Fingerprint Identification System terminal coming to our department..
- ♦ *Creation of Neighborhood Beat Officers* – Five officers, four to residential areas, and one to business districts, were assigned to walking beats as part of our Community Oriented Policing philosophy.
- ♦ *Creation of a five-year Strategic Plan* – a guide to lead us where we want to go in the future.

2002 proved that by working together, we can accomplish many things. I look forward to strengthening the partnerships we have made, and creating new ones.
